EDUCATION

Carnegie Mellon University

Master of Information Systems Management (**Distinction & Dean's List**).

Coursework: Database Management, Data Focused Python, Statistics and Probability, Distributed Systems, Object Oriented Programming in Java, A/B Testing Design and Analysis, Accounting and Finance, Economic Analysis

Pittsburgh, PA

May 2023 – May 2024

GPA 3.82/4

Vellore Institute of Technology

Bachelor Of Technology in Electronics and Communication Engineering

Coursework: Problem Solving and Programming, Data Structures and Algorithms, Object Oriented Programming, Computer Organization and Architecture, Information Theory and Coding

Chennai, TN

Jun 2015 – Apr 2019

GPA 3.9/4

SKILLS

Testing and Automation Tools: Selenium WebDriver, Junit, TestNG, Appium, Cucumber, Rest-Assured, Jenkins, Maven, JMeter, TestRail, Jira, Postman, Swagger, SOAPUI, Sauce Labs, POM, BDD, SDLC, STLC, Agile, Scrum

Technical: Java, Python, SQL, NoSQL, XML, HTML, JSON, Groovy, Gherkin, MySQL, Git, GitHub, CI/CD, Eclipse

Others: Manual Testing, Automation Testing, Performance Testing, API Testing, Mobile Testing, Database Testing, Regression Testing, Unit Testing, Integration Testing, System Testing, Acceptance Testing, Cross Browser Testing, Parallel Testing, Load Testing, White Box Testing, Black Box Testing

Certifications: ISTQB CTFL, Infosys Certified DevOps Professional, Infosys Certified Python Associate, Infosys Certified Selenium Advance Automation Tester, Infosys Global Agile Developer Certification, Scrum Inc - Registered Product Owner

PROJECTS

Bankpay Payment method launch in UK, Amazon

Dec 2025 – Jan 2026

- Worked towards launching a new payment method in UK for Prime subscription increasing customer reach and revenue.

Credit Card Installments for Prime Subscription in Brazil, Amazon

Oct 2025 – Dec 2025

- Validated the UI for addition of Credit Card Installment feature (1-12 yrs) improving the ease for subscription charges.

PIX Recurring & Non-Recurring Payment method launch in Brazil, Amazon

Aug 2025 – Oct 2025

- Validated UI and Backend tests and launched PIX payment method in BR with impact of 20000+ customers subscribing.

Pause and Resume Prime Subscription Worldwide Marketplaces, Amazon

Jun 2025 – Aug 2025

- Validated 20+ marketplaces Worldwide for the Pause and Resume feature of Prime subscription.

Advance Stacking Prime Subscription launch in Mexico & Poland, Amazon

Apr 2025 – Jun 2025

- Verified UI and Backend for Advanced Stacking where customers subscribed for an extra month/year of subscription.

Blik Payment method for Prime Subscription Renewals in Poland, Amazon

Jan 2025 – Mar 2025

- Validated the Prime subscription renewals functionality aiding customer retention and revenue generation.

End-to-End Payment Regression Test Automation Suite, Amazon

Oct 2025 – Jan 2026

- Pioneered the creation of end-to-end automation regression suite with ADAM AI capabilities reducing Testing lifecycle.

WORK EXPERIENCE

Amazon (Prime)

Seattle, WA

Quality Assurance Engineer I

Dec 2024 – Jan 2026

- Launched and validated multiple **Prime payment methods** across Worldwide Marketplaces (BR, MX, UK, PL), supporting **Prime subscription onboarding and expansion** with **500,000+ subscriptions** and **millions in revenues**.
- Created and maintained comprehensive **Test Plans, Test Cases, Test Data, and automated test scripts** for **Prime Payments project launches**, ensuring full functional coverage with **~0-1% defect leakage** in production.
- Developed and executed end-to-end **automation scripts** for **Desktop and Mobile platforms** to validate Prime subscription sign-ups, renewals, cancellations, plan changes, and payment method updates ensuring **~50% automation coverage**.
- Verified **UI and backend** consistency across **Prime services, payment processors, subscription systems, and digital orders**, proactively identifying and preventing **20+ hidden integration issues in services**.
- Pioneered end-to-end **test automation** for Prime Payments workflows blocked by **MFA authentication, manual intervention, and third-party dependencies**, enabling fully automated test execution and **~30% shorter QA timelines**.
- Created an **AI Tool** as a Hackathon idea that inputs **Business Requirement Docs and Figma Mocks** and **generates Test Plans and Test Cases**. Integrated **MCP servers and Bedrock agents** to generate artifacts, **reducing 25%** of QA effort.
- Integrated **TestRail with the ADAM AI automation framework** to **automatically update test execution results** during automation runs, improving test reporting accuracy and visibility, **reducing 20%** of QA effort.
- Led **bug triage sessions with cross-functional stakeholders**, ensuring faster defect resolution, clear communication, and consistent **test status reporting** for project tracking.

Infosys

Chennai, TN

Test Analyst

Oct 2022 – Apr 2023

- Built and maintained end-to-end automated test frameworks using Selenium WebDriver, Appium, Java, TestNG, and BDD (Cucumber) across SIT, QA, UAT, and PROD, reducing manual testing by **50%**.
- Designed scalable automation frameworks using **POM**, data-driven testing, parallel execution, cross-browser testing, **Log4j**, and **Extent Reports**, improving test reliability and efficiency.
- Integrated automated testing into **CI/CD pipelines** using Jenkins and GitHub; performed API testing with Postman and SOAPUI, improving deployment speed by **40%** and test efficiency by **30%**.

Test Engineer

Jan 2020 – Sep 2022

- Developed and maintained **300+ automated test cases** using TestNG and JUnit, increasing test coverage by **40%** and reducing regression testing time by **40%**.
- Automated **mobile (iOS & Android)** and **API testing** using Appium and Postman; reviewed **350+ API endpoints**, improving API reliability by **20%** and accelerating test cycles via Jenkins CI/CD integration.
